|  | Storage     | Compact, stack on top of each other or roll up                                                                                                                                                                                                                                                                                                     |
|  | Accessories | PVC Snap Track, PVC Edging or ESD Screw Fit Earthing Lead                                                                                                                                                                                                                                                                                          |

## Installation timings

-  1 person required
-  Single line connection in 2 mins
-  Grid connection in less than 5 mins

## Additional information

For detailed description and delivery options, please visit our website at [www.multimatts.co.uk/zedland-matting](http://www.multimatts.co.uk/zedland-matting)

Installation details and visuals are shown in the Product Leaflet.  
For alternative products, see categorised items on our website.

## Purpose

- ✓ Comfort for indoor workers against standing fatigue
- ✓ Electrostatic dissipative (ESD) properties for safe working
- ✓ Slip resistance and underfoot comfort
- ✓ Traction with noise reduction
